PROFESSIONAL SUMMARY

MERN Stack Developer Intern with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in RESTful API development, JWT authentication, database management, responsive web design, and frontend-backend integration. Contributed to government and client projects while collaborating in agile development environments. Passionate about developing scalable software solutions and continuously improving technical expertise.

EDUCATION

GIFT Autonomous

B.Tech in Computer Science and Engineering - CGPA - 7.81

2022 – 2026

Bhubaneswar, Odisha

Sri Aurobindo Institute of Integral Education

Higher Secondary Education (Science) - CGPA - 7.4

2020 – 2022

Bhubaneswar, Odisha

EXPERIENCE

Briskode Technology Pvt. Ltd.

MERN Stack Developer Intern

Apr 2026 – Present

Bhubaneswar, Odisha

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Designed and integrated RESTful APIs for frontend-backend communication and database operations.
- Implemented authentication, CRUD operations, and backend functionalities for web applications.
- Contributed to Amabuguda.com, a government client project, by developing the Supervisor Panel and administrative modules.
- Collaborated using Git and GitHub while participating in testing, debugging, deployment, and maintenance activities.

KEY ACHIEVEMENTS

- Contributed to Amabuguda.com, a government client project, by designing and developing the Supervisor Panel for complaint monitoring and issue management.
- Developed multiple full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built real-time monitoring functionality using WebSocket technology for live location tracking systems.
- Integrated frontend and backend services through RESTful APIs, improving application performance and data flow.
- Utilized Git and GitHub for version control, collaborative development, and project management.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL

Frontend Technologies: HTML5, CSS3, React.js, Bootstrap, Tailwind CSS, Responsive Web Design

Backend Technologies: Node.js, Express.js, RESTful APIs

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman

Concepts: Full Stack Development, MERN Stack Development, JWT Authentication, CRUD Operations, API Integration, Database Management,

PROJECTS

BusBee: Real-Time School Bus Monitoring System (Personal Project)

- Developed a real-time school bus monitoring system using React.js, Node.js, Express.js, MongoDB, and WebSocket technology.
- Implemented live location tracking and route visualization for real-time monitoring of school buses.
- Designed zone-based alerts and route management features to improve operational efficiency and safety.
- Built responsive dashboards for administrators and users with seamless frontend-backend integration.

Amabuguda.com: Government Public Issue Reporting Platform (Government Client Project)

- Contributed to the development of a government-focused public issue reporting platform for citizen grievance management.
- Designed and developed the Supervisor Panel for monitoring complaints, assigning tasks, and tracking issue resolution.

- Implemented authentication, complaint management workflows, and administrative functionalities.
- Integrated frontend and backend services using REST APIs and MongoDB to ensure seamless data flow.

Hotel Booking Web Application *(Frontend Project)*

- Built a responsive hotel booking web application using React.js and Tailwind CSS.
- Implemented room listing, booking workflows, and reusable UI components for improved maintainability.
- Designed mobile-friendly interfaces and optimized user experience across multiple devices.

ACTIVITIES & LEARNING

- * Actively building MERN stack applications using MongoDB, Express.js, React.js, and Node.js.
- * Developed and contributed to real-world projects including BusBee and Amabuguda.com.
- * Practicing Data Structures and Algorithms to strengthen analytical thinking and problem-solving skills.
- * Exploring scalable web application architecture, REST APIs, and modern frontend development practices.
- * Using Git and GitHub for version control, collaborative development, and project management.
